Intro

- Thank you Katie for the opportunity platform and encouragement
- Disclaimer: This story is really about my beliefs. Maybe you will agree with them, maybe you won't. But I encourage you to do your own research
- I'm going to talk about a world-wide problem.

Overview

- There will be some answers, but they too may be complex and they will definitely require some learning and courage to put them in place.
- Your country has been taken over by foreign power

Power

- They've been stealing our energy, money and resources - birth rights
- Ignorant
- Deception
- Pretend Laws
- The ONLY power they really have has been the consent of the people
- Consent or contract through 'presumption'
- If we all withdrew our consent tomorrow, they'd have nothing

Unalienable Rights | God given Rights

Personal rights held by an individual which are not bestowed by law, custom, or belief, and which cannot be taken or given away, or transferred to another person.

More on the slide

Sometimes your freedom is not taken away at gunpoint but instead it is done one piece of paper at a time. One secretly meaningless rule at a time. One small silencing at a time.

You can't even give those (unalienable rights) away let alone "Fuckin' take them"

Your Strawman is a "Debtor" by nature - you don't want to be your Strawman

Who owns your trust in your name? They opened it, but it's got your name on it. They're the Trustee and you're the Beneficiary - but they are not going to share anything with you because you are "lost at sea" and the government is controlling your trust.

Your life energy has been pledged as collateral for a loan to your country without your knowledge.

Birth Certificates where designed to open your account and manage you.

They keep the money away from YOU.

What can a few powerful people on the planet do with an excess of money?

Keep you poor, busy, tired and 5 minutes away from bankruptcy so that you don't have the time (or energy) to question.

- Intro - what is about to be covered in this section
- "WORD FLUCKERY" How they deceive us with words
- What does Sovereignty look like?

Slide

The MOST important thing to achieve Sovereignty is to learn to stand in your power THAT IS THE SECRET... is that easy? Fu'ck no! It's not easy.

If you really know your stuff and you know your rights, and there is no fear that you can do this, it's a bit of a journey to get to there as we know, but you can't be mean to other people. You can't call a policeman fat like I did one day. I've learnt a little bit since then. The more that we can stand in our power, the more we learn, the more knowledge that we have behind us then the better we will be at this.

The "Laws" really are bull! They don't have the power (Unless you consent).

Know your unalienable rights. Knowone has the right to impose on your unalienable rights

It's not something that somebody is just going to deliver to you, you have to achieve Sovereignty yourself.

End of screen share - how do you get to Sovereignty?
